Where Kindness Meets Ambition

SAINT CHRISTINA'S BULLETIN

Dear Parents,

At the school gate on Monday afternoon, one of our children held a handmade rocket in one hand while explaining to his mum why Venus is hotter than Mercury. Around him, other children were carrying handmade rockets and talking excitedly about what they had learned on Space Day. Listening to these conversations was one of the highlights of my week. Thank you to Mr Raveney and everyone who made the day possible.

You might expect Mercury to be hotter because it is closer to the Sun, but this child knew why Venus was hotter: its atmosphere traps heat. I could see the pleasure he took in explaining it to his mum. His conversation was in my mind during this morning's assembly, when we asked the children why we bother to explore in the first place. We looked at the famous photograph the Apollo 17 crew took of Earth while travelling towards the Moon. They had gone to explore somewhere else and, by turning their camera back, gave us a new view of the place we call home.

In Psalm 8, the writer looks at the Moon and stars and wonders where we fit within such a vast creation. People have looked up for as long as we have existed, wondering what is out there and what might be possible. The psalm then turns to the world placed in human hands. We can keep looking beyond Earth, but our responsibility for what happens right here and right now remains.

We want children to enjoy finding an answer that surprises them, as that child did with Venus. His explanation made sense of something that at first seemed the wrong way round. We make room for that kind of thinking in science and philosophy, and across their lessons: asking why, examining an idea, and being willing to change it when a new fact comes into view.

At the end of assembly, we left the children with a question to discuss at home: "If we don't know what we'll find, is it still worth looking?" The Apollo missions called for extraordinary ingenuity, but the people involved also had to accept that they could not be certain of the outcome. The risks children take in school are of a different kind. Offering an idea before you know it is right, or trying a solution that might fail, takes courage too. We want them to feel able to do that and to learn from what happens next.

As the Apollo 17 crew travelled towards the Moon, they turned their camera back towards Earth and took one of the most famous photographs ever made. We can see continents, clouds and sea, but no sign of the lives being lived below. We cannot see the people, or what they mean to one another. Yet this planet holds everything we know and love, and it is the only place we can call home. Human ingenuity took us far enough to see Earth this way. We need that same ingenuity now to protect the world our children will inherit.

Have a good weekend when it comes.

Best,

Damien Walshe
Headteacher

Monster Mash Decoration Volunteers

A huge thank you to our wonderful parent volunteers who join us in the Arts Hall on Friday mornings to help create and paint decorations for this year's Monster Mash School Disco on **Friday 16th October!** Their creativity, enthusiasm and hard work are going to help transform the school into a spooktacular celebration space. These sessions are not only a fantastic way to get involved, but also a great opportunity have a chat and get to know other parents from across the year groups. We'd love to see more faces join us as we bring the Monster Mash to life!

Tooled Up Education – Understanding the Behaviour of 4 and 5 Year Olds

On **Monday 12th October at 12:30pm**, Tooled Up Education will be hosting a webinar for parents exploring the behaviour of four- and five-year-olds at home and at school.

The session will look at what can sit behind children's behaviour, including big emotions, frustration and differences between how children behave at home and at school. It will also offer practical guidance on setting boundaries, responding to tricky behaviour and helping young children develop their emotional and social skills.

[Find out more and register for the webinar](#)

Mr Burke – Assistant Head (Pastoral)

Fr Terry's Food Bank

Thank you so much for all the generous donations we have received so far for Fr Terry's Food Bank.

Next week, we will be celebrating our Harvest Mass, led by our Children's Chaplaincy Team. As part of our Harvest celebrations and our commitment to Catholic Social Teaching, it would be brilliant if every child could bring in a tin or another item of non-perishable food to donate.

Donations can be placed on the collection tables underneath the stairs next to the Arts Hall.

Thank you, as always, for your generosity and support.

Mr Burke and the Caritas Ambassadors

SAINT CHRISTINA'S BULLETIN

An Out-of-This-World Week!

This week has been all about space! Nursery celebrated Space Day by experiencing the visiting planetarium and taking part in an exciting rocket workshop. Following our reading of *Whatever Next!*, Nursery made shiny space helmets and climbed into cardboard-box rockets, just like Baby Bear and Owl in the story.

The space theme continued throughout the classroom. Nursery designed rockets, spaceships and moon vehicles in the Construction Area, created rockets from cardboard tubes and had great fun racing them across the room. At the Playdough Table, Nursery added eyes, feet, hands and other features to create some fantastic aliens, while dressing up as astronauts and aliens was especially popular in the Home Corner!

Ms Randle - Head of EYFS and Nursery Class Teacher

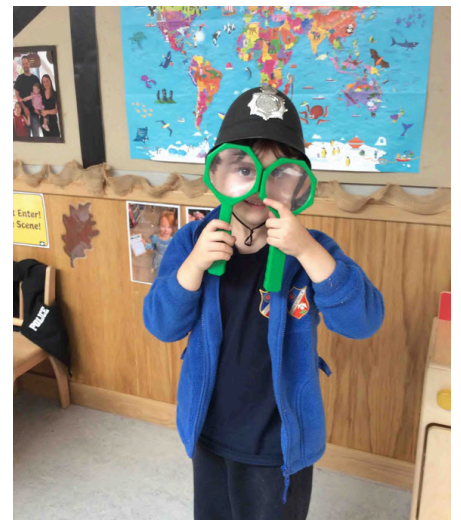

SAINT CHRISTINA'S BULLETIN

The Case of the Missing Conkers

Reception had a mystery to solve this week! Last week, the children noticed that some of the conkers they had been using outside were starting to disappear. This week, we became investigators to find out what was happening. The children learned how investigators and police officers solve cases before searching for clues, creating wanted posters and interviewing possible witnesses. They also left some conkers on the wall to see if they could catch the culprit. During Around the World Club, we finally had a breakthrough when a squirrel was spotted taking one of the conkers! This linked to our autumn learning as we found out why squirrels collect and store food at this time of year. Now that the mystery has been solved, the children have decided to continue leaving conkers outside for the squirrel, helping it gather plenty of food for the winter months.

Ms Williams and Ms Koci - Reception Class Teachers

SAINT CHRISTINA'S BULLETIN

Year 2

It has been a busy and exciting week in Year 2!

On Monday, the children took part in our Space Day, working in teams to choose from a range of different missions across the curriculum. There was everything from designing planets and spacecraft to investigating the Moon, astronaut training and even debating whether aliens exist! The children also visited a planetarium in the school hall, where they had the chance to explore the night sky and learn more about space. They then worked with Mr Artur and Mr Raveney to design and make their own rockets before heading outside to put them to the test! It was lovely to see the children working together, making their own choices and putting their 6Cs into action throughout the day.

On Thursday, Year 2 were delighted to welcome Build to Learn for a special Great Fire of London workshop. The children used LEGO bricks to build their own Tudor-style houses, thinking carefully about some of the features of buildings in 1666, including the wooden beams and overhanging upper floors. At the end, all of their houses were brought together to create their very own London in 1666! The children then thought about how the way houses were built and positioned helped the fire to spread so quickly. It was a brilliant way to bring our Great Fire of London learning to life.

A fantastic week with lots of wonderful learning taking place!

Mr Burke and Ms Higgins - Year 2 Class Teachers

SAINT CHRISTINA'S BULLETIN

KS1 History Lego Workshops

KS1 had a fantastic time welcoming Build to Learn for our hands-on LEGO workshops this week!

Year 1 became toy historians, exploring how toys have changed over time and using LEGO to bring their history learning to life. Year 2 travelled back to 1666 to investigate the Great Fire of London. They explored how the fire began and spread, considered the features of Tudor architecture and then put their learning into action by constructing their own Tudor-style houses.

Throughout the workshops, we put our 6Cs into action: Creativity, Critical Thinking, Communication, Collaboration, Curiosity, and Commitment. We worked together, shared ideas, solved problems, persevered when our designs needed adapting and used plenty of creativity to bring our historical learning to life.

A brilliant day of hands-on learning, showing that sometimes the best way to understand the past is to build it!

Ms Khalique, Mr Burke and Ms Higgins - Year 1 and 2 Class Teachers

SAINT CHRISTINA'S BULLETIN

KS1 Story Club

The Day the Crayons Quit:

I like this story because it is funny. I like the pictures. My favourite crayon is green.

- Child in Year 2 DB

Year 3

This week, Year 3 blasted off into Space for Saint Christina's Space Day! The class showcased the 6Cs throughout the day as they were challenged to complete space themed tasks across every subject, including Drama, Computing, Maths and Geography. To top this off, Mr Raveney didn't just organise one workshop but two! Year 3 spent time under the stars and demonstrated excellent knowledge and curiosity as they entered the Planetarium. We were also treated to an exciting rocket making workshop. Somewhere between all this excitement, we also fit in some work!

Ms Mackley - Year 3 Class Teacher

SAINT CHRISTINA'S BULLETIN

Year 4

This week in Year 4, we enjoyed an exciting Space Day packed with teamwork and discovery! The children took part in a rocket-making workshop, explored the universe in a fascinating planetarium experience, and completed a range of space-themed missions while demonstrating our 6Cs through excellent communication, collaboration, creativity, critical thinking, commitment and curiosity. In RE, we learned about God's covenant with Abraham and its importance as the foundation of both Jewish and Christian faith. In History, we explored the pyramids of Ancient Egypt, learning about the different types, their purpose and how they were built, before creating our own pyramid-shaped fact files. In Maths, we began our addition and subtraction unit, practising mental addition strategies and using the column method. In English, we developed our writing by using exciting sentence openers and also enjoyed a special online assembly with Michael Rosen for National Poetry Day. We continued building friendships with our Year 1 buddies by creating autumn artwork together, and the children also did a fantastic job completing their CATs assessments, showing great resilience and problem-solving skills throughout.

Ms Farquhar - Year 4 Class Teacher

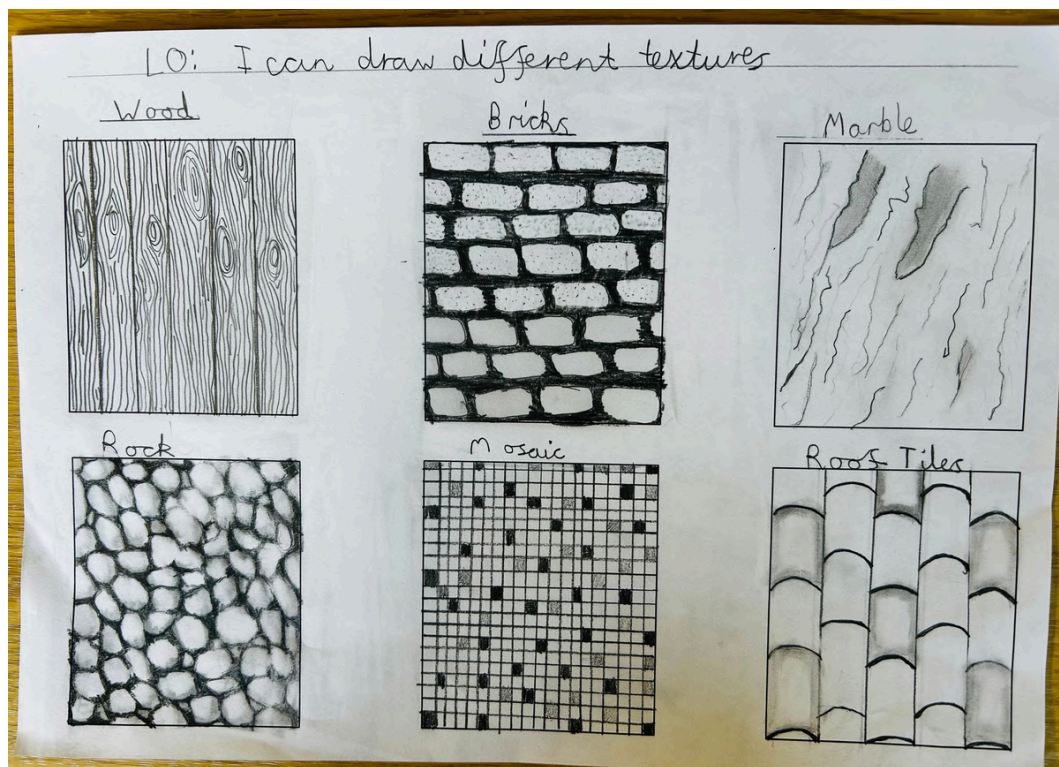

SAINT CHRISTINA'S BULLETIN

Year 5

In Art, Year 5 have been exploring the beautiful patterns of William Morris, looking closely at how he used repeated shapes, natural forms and intricate details to create his designs. Building on this work, the children are now developing their observational drawing skills by learning how to represent different textures, including brick, wood and other natural and man-made surfaces. They are experimenting with line, detail, shading and tone to make their drawings look realistic and three-dimensional. It has been wonderful to see their attention to detail and creativity developing as they bring different textures to life!

Ms Sephton - Year 5 Class Teacher

SAINT CHRISTINA'S BULLETIN

Year 6

Year 6 thoroughly enjoyed immersing themselves in all things space at the start of the week, from making their own rockets to visiting the planetarium and learning more about our incredible universe.

As part of the day, the children chose from a selection of English space missions. Some became budding astronauts and scientists, writing persuasive mission proposals to secure funding for an expedition into space. Others explored the arguments for and against humans living on another planet, before reaching their own conclusions. Our future journalists travelled forward to the year 2100, creating imaginative newspaper front pages reporting on major discoveries and events in space. It was wonderful to see so much Creativity, Curiosity and Critical Thinking on display throughout the day.

Back on Earth, in Maths, the children have been developing their understanding of the order of operations, carefully considering which calculations need to be completed first when tackling multi-step expressions. In preparation for their exams, the children have been focused and working through various mock tests. Well done Year 6!

Mrs Ellisdon - Assistant Head (Academic) and Year 6 Class Teacher

Celebrating National Poetry Day

Years 3-6 had a wonderful time celebrating National Poetry Day on Thursday by joining the live 'Wonder Is...' assembly with Michael Rosen and the Hot Poets. It was fantastic to know that we were joining over 1,000 schools from across the country to celebrate poetry together.

The children enjoyed exploring the idea of wonder through poetry. They were encouraged to think about what makes them stop, question, imagine and look at the world a little differently, while discovering how poets can play with words to express their ideas in creative and unexpected ways. Excitingly, the children also had the opportunity to contribute their own words and ideas to a poem that was created live during the session.

There was a real buzz as the children shared their thoughts and ideas, and it was lovely to see so much enthusiasm for poetry across the year groups. The session connected beautifully with our 6Cs, particularly Curiosity, Creativity, Communication and Critical Thinking, and was a fantastic way for the children to celebrate the joy and power of words together.

Mrs Ellisdon - Assistant Head (Academic) and Year 6 Class Teacher

SAINT CHRISTINA'S BULLETIN

Year 1's Buddy Art with Year 4

Year 1 had a wonderful time getting creative with their Year 4 buddies. After collecting a range of beautiful Autumn treasures during their visit to Primrose Hill last week, the children used their natural finds as inspiration for a collaborative art project. Working together, they explored different ways to arrange and combine leaves, twigs and other natural materials to create their own unique pieces of artwork.

It was fantastic to see such wonderful creativity, collaboration and imagination throughout the session. The Year 4 children were brilliant role models, encouraging and supporting their younger buddies, while the Year 1 children confidently shared their ideas and embraced the opportunity to experiment. Together, they discovered how the natural world can provide endless inspiration for art and enjoyed learning from one another along the way.

It was a joyful afternoon filled with creativity, teamwork and plenty of Autumn colour. We were so proud to see our Year 1 and Year 4 children working so beautifully together and making the most of this special opportunity to create, explore and learn as a team!

Ms Khalique - Year 1 Class Teacher

SAINT CHRISTINA'S BULLETIN

Another fun and productive week in Year 2!

We had another very productive and fun week with Year 2, continuing our D&T activities linked to the Great Fire of London.

The children worked in small groups on different activities. One group used playdough to make Tudor bread, another group made masks and performed a little drama about the Great Fire of London, and the third group worked on symmetry by creating their own fire drawings.

The children really enjoyed choosing their characters for the performance, with King Charles, the rat catchers and the maids being the most popular choices!

It was lovely to see them having so much fun, using their imagination and enjoying the different activities throughout the week.

Ms Bretones - Head of Spanish, Art & Design Technology

Spanish Pen Pals

This year, the children in Years 5 and 6, together with most of our older Spanish speakers, will be taking part in our pen pal experience again!

We are very excited to be connecting with Escola Poblenou in Barcelona and Escola Floresta in Sant Cugat del Vallès, Catalonia.

The children are already very excited and can't wait to meet their Spanish peers, exchange letters and find out more about each other's lives and schools. I have heard that one of the schools might even be sending us some special Christmas sweets this year! We can't wait to find out what they are!

Ms Bretones - Head of Spanish, Art & Design Technology

SAINT CHRISTINA'S BULLETIN

Music Update

Composer of the Month - October

Our composer of the month for October is the American composer **Steve Reich**, who was born in 1936 and celebrates his 90th birthday this month!

Steve Reich became one of the most important figures in **minimalist** music during the 20th century – his music often starts with a simple musical idea that repeats over and over, with tiny changes that gradually transform the music over time. He has written music for percussion, voices, strings, keyboards and electronic sounds. Reich's music can sound hypnotic, exciting and completely different from traditional orchestral music. Check out some examples at the links below – if they sound a bit bizarre to you, try to find out a bit more about them to understand Steve Reich's fascinating work better.

[Clapping Music](#)

[Different Trains](#)

[Drumming](#)

[Music for 18 Musicians](#)

To take part, children can fill in a listening log (titled "I listened to..") writing a bit about what they thought of the music, and bring it in to add to the Composer of the Month display board (outside the Music classroom), to earn a house point.

While this project is aimed at KS2, children in KS1 are very welcome to get involved too - any piece of paper will do to write a few thoughts on one of the pieces they have listened to, or they can collect a listening log slip from me.

Year 3 - "Music for 18 Musicians"

Year 3 explored some of Steve's Reich's music this week, and with 18 children in the class it seemed too perfect to miss an opportunity to create our own version of this mesmerising piece. We are hoping to make a recording we can share soon!

SAINT CHRISTINA'S BULLETIN

Orchestra

All our music clubs have got off to a great start this term, and we are especially pleased to welcome some new members to Orchestra. This group is for children in KS2 who play an orchestral instrument. If you feel your child would be suitable for this group please contact me to find out more. We are looking forward to starting our Christmas music very soon!

Music Lessons

We now have spaces for all instruments available – piano, guitar, ukulele, flute, violin, cello, trumpet, trombone and singing. If you are interested in lessons for your child please click on the link [here](#) to access information about lessons and the online application form. Please note that we recommend singing and trumpet/trombone for Year 3 upwards.

Please feel free to contact me (ebryant@saintchristinas.org.uk) if you would like to discuss any aspect of music lessons.

Mrs Bryant - Director of Music

SAINT CHRISTINA'S BULLETIN

Sport Update

This week, our Year 3 and 4 football team took part in an in-house football tournament on Monday, with 20 children involved. It was a fantastic opportunity for the children to practise their skills and play some competitive matches in preparation for their upcoming fixtures after half term. Well done to Herb and Raphael for some great goals, with special mentions going to Milan S and Sameera for their excellent efforts and determination throughout the games. It was also fantastic to have Oliver, one of our Sports Captains, refereeing the matches and taking on this important role.

On Tuesday, our Year 5 and 6 mixed teams took part in a fixture against Ivy House. The teams put on an excellent display of football, securing three strong victories and showing great teamwork, skill and determination throughout the matches. Well done to Imad (3), Isabella (2), Sofi, Camilla and Giselle, who all scored. A big thank you to all the parents who came along to support the children. Your encouragement was greatly appreciated

This week, to celebrate International Space Week, our EYFS classes enjoyed taking part in a variety of space-themed games during their PE lessons. The children developed their running, dodging and jumping skills through a range of fun activities. They are a very enthusiastic group and continue to show fantastic energy and excitement during their PE lessons. During choosing time, the children also enjoyed exploring different pieces of equipment and creating their own rockets, allowing them to develop their creativity alongside their physical skills.

Year 2 continue to impress in their PE lessons and are progressing very well in both football and netball. This week, they enjoyed playing mini football matches, developing their teamwork and game awareness. In netball, they focused on marking an opponent and finding space to get away from a defender.

SAINT CHRISTINA'S BULLETIN

In KS2, lessons this week focused on gameplay. The children spent time developing their understanding of the basic rules of football and netball before putting their learning into practice during small-sided matches. It was fantastic to see the children developing their decision-making, teamwork and understanding of the games as they applied their skills in a match situation.

As well as this, all of the KS1 and KS2 classes have enjoyed spending some time learning a Space dance, which they have all greatly enjoyed taking part in. It has been lovely to see the children getting involved with such enthusiasm and confidence.

I am very much looking forward to the staff and parent netball session after school this evening and look forward to updating you next week about the event.

Upcoming Fixtures

Date	Against	Team/Yr	Venue
Monday 5 th October	Southbank	Yr 5/6 Mixed Football	Home
Wednesday 7 th October	St Margarets	Yr 5/6 Girls Netball	Away
Monday 12 th October	Cavendish	Yr 5/6 Girls Netball	Away

Co-Curricular Update

Our Space Day on Monday was a huge success! It was lovely to hear the buzz and excitement around the school as all of the children took part in a fantastic day of space-themed learning and activities throughout the whole school.

All children had the opportunity to take part in two exciting space workshops. We were delighted to welcome the visiting Wonder Dome Planetarium, where presenter Matt showed the children some amazing clips and shared a huge array of fascinating information about different aspects of space. The children thoroughly enjoyed the interactive sessions and had lots of wonderful questions to ask. It was fantastic to see their curiosity and enthusiasm as they discovered more about the planets, stars and the wider universe.

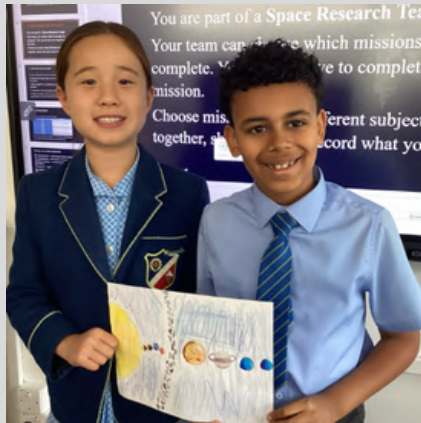

SAINT CHRISTINA'S BULLETIN

The children also took part in a rocket workshop with Mr Artur and me, where they designed, created and then fired their very own rockets! It was fantastic to see the children working together, sharing ideas and helping each other to construct their rockets. They showed great creativity and perseverance as they worked on their designs and prepared them for launch. The best part, of course, was watching them soar into the sky!

Our KS1 and KS2 classes spent the remainder of the day working on a variety of space-related activities linked to different areas of the curriculum. Working in small teams, the children were challenged to complete as many activities as possible. It was wonderful to see them taking ownership of their learning, collaborating with their classmates and producing some fantastic pieces of work. There was a real sense of excitement and enthusiasm throughout the day, with the children thoroughly enjoying the opportunity to learn in such a fun and different way.

SAINT CHRISTINA'S BULLETIN

A huge thank you to everyone who helped make the day such a memorable experience for the children. A special mention must also go to Chef Nigel and the kitchen team, who created a fantastic space-themed packed lunch, which was enjoyed by everyone.

My Amazing Space Day by Matthew Y5

On Monday, I had an amazing Space Day, and it was one of the best days ever! We did three main activities: going to the planetarium, making rockets and completing space-themed tasks.

My absolute favourite part was going to the planetarium. It had a real-life projector that made me feel as though I was actually in space. I really enjoyed it! We got to listen to lots of facts, and I learned a lot. At certain points during the planetarium session, we could ask questions. I asked lots of questions, and I really felt that this was a special part of Space Day.

Something that definitely deserves a highlight was rocket making. I built my rocket out of paper, card and tape, and I placed it onto a rocket foot-pump launcher. When I jumped on it, my rocket went the highest in the air! I really felt that I had put a lot of effort into it. We launched all of the rockets four at a time, and we each got around three turns. It went brilliantly! This was also my sister's favourite activity.

Other activities included completing space-themed tasks related to different subjects, including philosophy, drama, Spanish and more. All the tasks were ranked from one to five stars, depending on their difficulty and the number of points they were worth. One task I particularly enjoyed was writing a four-line rhyming rap about space in music, which I presented to the class. I was very proud of it!

Something else that really sparked my creativity was the space quiz, which I chose to take on. This task was an incredible experience for me. I added slide transitions, cool fonts and lots of effects to make my presentation stand out.

To conclude, I thought Space Day was a really exciting and great experience. There were so many activities that made it feel like a special day. I can't wait for next year's Space Day, and I am really looking forward to it!

SAINT CHRISTINA'S BULLETIN

Getting to know our Year 6 Prefects

Each week we will find out about some of our new Year 6 prefects. This week is the turn of Caleb and Diana the Saint Francis House Captains.

Hi, it's Caleb here, and I'm one of the Yellow Team House Captains. I like to bring creativity, teamwork, and collaboration to our House Meetings. I hope that everyone in my House can achieve the best they can and enjoy taking part, because winning isn't everything. I love swimming, cross country and dancing, and I'm really proud to be leading the Yellow Team this year.

Hi I'm Diana and I am really excited to be a House Captain. I hope to make Saint Francis a better House and bring fresh ideas to the group. I love reading and singing and I am really looking forward to the Saint Christina's talent show later in the year.

Each week, we collect House Points, lead our House Meetings and present the House totals in assembly. I'm excited to work with everyone in Saint Francis and make this a fantastic year!

Mr Raveney - Director of Sport and Head of Co-Curricular

NOTICES and REMINDERS

Nut Free School

We have a number of children and staff in the school who have serious nut allergies. Please will you ensure that you do not give your child any nuts or nut products (e.g. Nutella) to bring into school.

Collection Reminders

To help collection run smoothly and efficiently, we kindly ask that you move away from the school gate once you have collected your child, as this helps us to avoid congestion and maintain a clear flow for other families.

We would also be grateful if conversations with staff at collection could be kept to a brief exchange. If you need a longer conversation, please arrange a suitable time with your child's teacher so that staff can remain fully focused on dismissing the children.

Thank you for your support and cooperation.

Labelling Uniform

Please remember to label your child's school uniform clearly to avoid losing items. If you have purchased uniform from a nearly new uniform sale, please ensure any previous name labels are completely covered to avoid confusion or misplacement.

Parking and Neighbours

We kindly ask all parents and carers to avoid parking in or blocking neighbouring residents' driveways during drop-off and pick-up times. Please be considerate of our neighbours by only stopping in designated or permitted areas.

Your cooperation helps us maintain a safe and respectful environment for both our community and the families we serve.

Thank you for your understanding and support!
